Claim(s) discussed: All pending

Identification of prior art discussed:

None

Agreement with respect to the claims f) was reached. g) was not reached. h) N/A.

Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

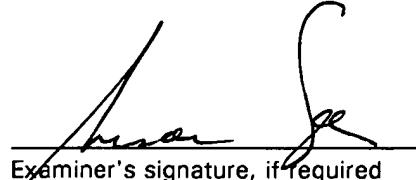

Exr called to inform Mr. Sadoff that after consultation with A. Caputa it is found that the newly submitted amendment raises new issues and will not be entered. If it were to be entered it would not overcome the rejection under 35 USC 103. Exr suggested that the submission of objective evidence demonstrating that, at the time the invention was made, HSV-1 (mutated in the gamma34.5 gene so as to become non-functional) would not be expected to infect metastatic melanoma cells would be considered.
